

Congress of the United States
House of Representatives
Washington, DC 20515

April 18, 2023

The Honorable Kevin McCarthy
Speaker of the House
United States House of Representatives
Washington, D.C. 20515

Dear Speaker McCarthy,

Congresswoman Taylor Greene has a long and well documented history of extremist and dangerous statements. A bipartisan congressional majority, including 11 members of the Republican Caucus, rightly removed her from committees in the 117th Congress.

Now, her defense of Jack Teixeira, who is accused of recklessly mishandling classified information, and who in no way meets any definition of a whistleblower, shows that she categorically lacks the judgement and temperament to serve on any committee in the House of Representatives.

I serve with Congresswoman Taylor Greene on the Committee on Oversight and Accountability in addition to the Committee on Homeland Security, and the Select Subcommittee on the Coronavirus Pandemic. She has not proved herself worthy of these responsibilities. It is clear that she should not serve on any committee, let alone those responsible for the national security of the United States.

If Congresswoman Taylor Greene will not quickly resign from her committees, I call on you to act quickly to remove her from all her committee assignments. She is a threat to our national security.

Sincerely,
